BJSS

BJSS is the UK's leading privately-owned IT and business consultancy. We work with the world's largest organisations to design, deliver and support large-scale digital transformation.

As a privately-held business, we have the flexibility to do the right thing for our clients, unencumbered by the constraints of external investors. The genuine long-term partnerships we have established across the public and private sectors attest to the success of our approach. Whether working as a sole supplier, or collaborating in mixed client and vendor teams, our flexibility, commitment to technical excellence and absolute focus on outcomes mean we routinely succeed where others have failed to deliver.

Our people enjoy a culture devoid of large company distractions, able to focus their talents on building value for clients and delivering some of the world's most challenging and rewarding engagements.

Our clients know they can rely on the quality of our people, their determination to deliver, and our straightforward, no-nonsense approach.

As pioneers of agile delivery at scale, our innovative Enterprise Agile® approach has been recognised

by the Queen's Award for Enterprise and enables organisations of all sizes to deliver business value from IT transformation.
